

Complete the following tables, using your books and also research on the internet:

	Annelids	Molluscs	Nematodes
Legs			
Body			
Shell			
Head			
Examples			
Habitat			

### ARTHROPODS

	Crustaceans	Myriapods	Insects	Arachnids
exoskeleton				
antennae				
legs				
Body regions				
wings				
examples				

CHORDATA

	Fish	Amphibians	Reptiles	Birds	Mammals
eggs					
fertilisation					
development					
skin					
ears					
lungs					
Homoothermic					
teeth					
limbs					
habitat					
examples					

## PLANTS

	monocotyledons	dicotyledons
veins		
leaves		
Seed leaves (cotyledons)		
examples		
Numbers of petals / flower parts		
Vascular bundles		

MICRO-ORGANISMS

	Bacteria	Fungi	Virus
Alive or dead			
Size			
Cell – mono? Multi?			
Cell structure			
Method of reproduction			
Method of nutrition and digestion			
Respiration			
habitat			
Roles in the life cycle			
Uses (in food and other)
